WARNING: NO SHOULDER PAD CAN PREVENT SERIOUS OR FATAL INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Any modification or alteration of this product could reduce its protective capacity. Football activities may result in heat related illness. Symptoms may include: dizziness, cramping, heavy sweating, vomiting, confusion, or elevated temperature. If you have symptoms immediately stop playing and report them to your coach, athletic trainer, and parents. Do not return to activity until all symptoms are gone and you have received **MEDICAL CLEARANCE.**
